

# Nikon Coolpix L820 Flash Bulb Replacement

This guide will lead you through the process of accessing and replacing the flash bulb.

Written By: Marc

## INTRODUCTION

The flash is an integral component to taking great photographs. This guide will lead you through the necessary steps to replace a damaged bulb.

---

### TOOLS:

- [Phillips #0 Screwdriver](#) (1)
-

## Step 1 — Flash Bulb

- Begin by removing these two screws.

## Step 2

- From here, the panel covering the flash bulb can be removed.

## Step 3

- Once the panel has been removed, the bulb is accessible and can be replaced.

To reassemble your device, follow these instructions in reverse order.
